TEAM ONE NETWORK is dedicated to supporting Law Enforcement and Military by providing training for one single overwhelming objective: TRAIN TO WIN! For that reason, we offer the most practical, intense and realistic training in the world. What you learn from Team One Network could save your life — or the lives of others.

Team One Network has brought together a team of professional instructors and consultants who are nationally and internationally recognized subject matter experts and who possess solid professional and academic backgrounds and thereby are able to provide the most current, up-to-date and technologically advanced training and services available.

Over the years, our Instructors have trained thousands of students who have not only participated in the training, but have also contributed to our constantly expanding and fluid training regime.

Our methodology makes it easier than ever to host classes. We come to you — completely equipped with the best products, technology and equipment, which you use in training. What better way to test equipment before purchasing and in coming to your site, we save you all the travel, lodging and per diem costs of transporting your officers.

When you attend Team One training course you become part of our professional team; dedicated to officer survival and winning, I guarantee that Team One Network training will be a valuable learning experience that will improve your attitude, skill and knowledge.

We look forward to training with you! Thank you again for your support and interest in Team One Network.

Stay safe and Train to Win.

John T. Meyer, Jr
President
Team One Network, LLC

John is President of Team One Network; LLC a company established to test, evaluate, train and market various manufacturers’ products to the Law Enforcement community as related to officer survival. John spent 15 years with Heckler & Koch, Inc., ultimately rising to the position of Vice President of Sales and International Training. John led a team of instructors that pioneered the integration of formalized training doctrine with practical field experience. These cutting edge, realistic tactical training courses have become an industry standard. John was a Lieutenant with the DOD Police, where he served as a special reaction team leader and is a past President of FOP Middle Forge Lodge 100. He was a member of the Board Directors of the International Association of Law Enforcement Firearms Instructors (IALEFI) from 1988 to 2018 and served as Vice President from 1990-2016. John is a recipient of the “Charlie Smith IALEFI Award of Merit”.

HOSTING OPPORTUNITIES
https://teamonenetwork.com/hosting/

Bring Team One Network training to your location

Becoming an Official Host Training Site only requires that the host agency provide a suitable training area, receive and store course materials and provide projection support. These requirements differ from course to course, and we work with our hosts to ensure they are fully prepared to support each one.

There is no hosting fee. However, we rely heavily on our hosts to actively market their program to other agencies in their area via fax, email, flyers, or other resources. We will handle all registrations, accounting, paperwork, and national level marketing. In return, the host agency receives up to two free slots in the course.

Please contact the training coordinator at (O) (540) 752-8190 or via e-mail at info@teamonenetwork.com for more information.
INSTRUCTORS & ADVISORS

ZAK ALBRECHT
Zak has 14 years of law enforcement experience. Zak started his career with the Wisconsin Department of Natural Resources. Zak then moved into corrections with Milwaukee County Sheriff’s Department and later joining Marquette County Sheriff’s Department where he currently works. Zak has been involved with the Sheriff’s Recreation Patrol since 2008. Zak has extensive training in tactical boat, ATV and snowmobile patrol. Zak has also been an Adjunct Instructor with NWTC-Green Bay since 2010. Zak was half of the team that developed the Tactical ATV and Snowmobile courses. Zak instructs Tactical AT and Snowmobile safety courses to Game Wardens, state and local officers.

RAY BOYD
Ray has been in the law enforcement and security field since 1973. He was a member of SWAT at Kennedy Space Center/Cape Canaveral Air Force Station for 18 years prior to accepting a position as a Firearms Instructor at the Kennedy Space Center firing range, where he currently is the Range Master. Ray has completed instructor certification courses through Team One, Heckler and Koch, NRA and FLETIC in tactical handgun, submachine gun, patrol rifle and precision rifle as well as low light/laser, active countermeasures and use of force. He also has completed armorer certifications through Team One, Heckler and Koch, Beretta and Glock.

DAVID BRANCATO
David retired from the Clifton New Jersey Police Department in 2012, after 34 years of distinguished service. During his last 10 years of service he was assigned as the Clifton Police Department’s Range Master. David is one of the founding members of the Tactical Response Team which was formed in 1983, where he served as an Operator, Team Leader and the team’s lead Firearms and Tactics Instructor. He has trained law enforcement and military personnel throughout the country as one of the original adjunct instructors with Heckler & Koch’s International Training Division from 1990 through 2002. He has been instructing with Team One Network since its inception.

JOHN J. BURDOCK
A 29 year Law Enforcement veteran, John currently serves as Major for the Indian River County Sheriffs Office in Vero Beach, Florida and is an Adjunct Instructor at Indian River State College. John is a former SWAT Team Commander and 17 year veteran of his department SWAT team. John has been a contract trainer for the SafariLand Training Group since 1996 and specializes in Ballistic Shield Training. He has instructed cutting edge Ballistic Shield courses to all levels of Law Enforcement and Military personnel worldwide. John is also a certified instructor in firearms, defensive tactics and CBQ, a graduate of Marine Corps Scout Sniper School, he holds a B.S. from Barry University in Public Administration and is a graduate of the 53rd Command Officer Development Course from the Southern Police Institute.

His name is synonymous with high-risk driving training and his clients are heads of state, corporate executives, security driver/chauffeurs and professional security personnel in government and the private sector. He has trained more than 700 personnel from corporations in 29 countries on five continents. He teaches from hands-on, life experiences, which can only be acquired from experiencing a variety of environments, some of which find crime and terrorism a daily occurrence. Colombia, Peru, Iran, Kuwait, Jordan, Mexico, Brazil, Egypt, El Salvador, Haiti, and Pakistan are some of the countries in which his programs have been implemented.

TIMOTHY J. SHARPE

Tim is a 30-year law enforcement veteran who retired as a Captain for the Wauwatosa Police Department (WPD). He was the former Director of Training and Personnel, Range Master and Lead Firearms Instructor. As a 20-year veteran of the department’s Special Response Team he served as an Operator, Team Leader, and Team Commander. Tim has taught use of force, advanced firearms, active shooter response tactics, workplace violence preparedness, and tactical operations courses. In 2013 and in 2015, under the direction of the U.S. State Department, Tim led an instructional team and traveled to Chisinau Moldova. The goal of this training initiative was to implement a multi-faceted police training program for the Moldovan Police Department. Tim attained his Bachelor of Science degree from Minnesota State University-Mankato, and is a Certified Public Manager through the University of Wisconsin-Madison. Tim currently instructs in the Criminal Justice Program at Waukesha County Technical College.

LEO SHAYKET

Lee emigrated to the United States from the former Soviet Union in 1979 and trains defense tactics, SWAT applications, edged weapons, firearms and fitness programs. He has a unique approach focused on simple and practical applications. Lee taught numerous programs for Law Enforcement Agencies in the US and Canada. His training is well received because it works under real life conditions. He is a member of ILEETA where he presents annually. Lee has testified as an expert on use of force and appeared in interviews with local media to explain and comment on police applications.

TREVIN SORBY

Trevin is a retired Lieutenant, with 27 years of service, from the Prince William County (VA) Police Department. Many of those years were with the SWAT Team and his final position was Deputy Team Commander. Trevin has extensive experience in incident/event management and supervised several years coordinating and supervising large scale events. He was also a Watch Commander, Patrol Supervisor, Emergency Management Representative, Firearms Training Unit Supervisor and Firearms Instructor.

BILL STRANG

Bill is founder and President of Tactical & Survival Specialties, Inc. (TSSI) and is retired from the U.S. Navy after 24 years of active and reserve service. His previous backdrops working as a Force Branch over half of his career assigned to Naval Construction Force Units (Seabee’s). In addition to being a Seabee Combat Warfare qualified, Bill was also recognized as a Master Training Specialist and Instructor in small arms marksmanship, crew served weapons, small unit tactics, law enforcement and physical security skills. Concurrently, Bill has been involved in the law enforcement and military special operations community for over 20 years providing tactical equipment, technical and logistics support. He holds certifications as an instructor in chemical munitions, distraction devices, and the MPS submarine gun.

JOE TUZZOLINO

Joe is a retired Detective from the Clifton Police Department which he served for 32 years. A decorated Marine Corp Veteran with Vietnam Combat service, he was assigned as a Tactical Team Leader/Instructor. Joe was the senior member of the Passaic County Hazardous Devices Technician Team and has been a consultant for explosive entry for the past 23 years. He is a Fire Arm Instructor and former Range Master of the County of Passaic in New Jersey.

KATHLEEN VACCA

Kathleen Vaca graduated from the University of Florida with a B.S. degree in Journalism and Communication. After five years as a reporter, she traded in her 35mm camera for a .38 revolver and began her law enforcement career. During the next two decades, Kathleen worked in a variety of assignments, including patrol, narcotics, training, juvenile crime, internal affairs, and gang intelligence before retiring as a sergeant in the drug unit’s major case squad. As a high liability instructor, Kathleen taught defensive tactics, mobile field force, tactical communication, and rapid response to active shooters. She is an adjunct instructor with the Multi-Jurisdictional Counterdrug Task Force and teaches surveillance courses at the local, state, and national level.

KATHLEEN VONK

Kathleen has been a police officer since 1988. She designed and implemented the Police Wellness Instructor Course for the Michigan Commission on Law Enforcement Standards, on which she is an expert, consultant, and instructor-trainer. She is a faculty member of the Washtenaw Community College (WCC) in Ann Arbor, Michigan, and has been the primary fitness instructor for the WCC Police Academy since 2001. She has a BA and a BS and is a certified firearms instructor, H&K Pistol Instructor, Redman Simulation Training Instructor, Simunition Instructor, Certified Strength and Conditioning Specialist (CSCS) by the National Strength and Conditioning Association (NSCA), Health Promotion Director by the Cooper Institute, and an FTO for her agency. She has published many articles in national and international journals regarding police cycling, officer survival, firearms and tactics, fitness, and police performance under stress, and she has presented these subjects at international conferences since 1995.
PAUL WASSILL
Paul is a retired Sergeant from a major Canadian police department with 32.7 years of operational police experience including: uniform patrol officer, firearms/force tactics instructor, Criminal Investigations Branch, uniform patrol supervisor, Tactical Support Unit operator and supervisor; and the implementation, strategies, equipment, and training of the department’s Special Security Division. Paul has instructor certifications in law enforcement handgun, shotgun, rifle, precision rifle, Taser® Master Instructor, and use of Simunition® less-lethal training ammunition. He is also a court qualified subject matter expert and lecturer on firearms and other offensive weapons. Paul also has completed police mentoring and training missions in Bosnia & Herzegovina, as a Canadian Civilian Police (CivPol) member of the United Nations Mission in Bosnia & Herzegovina (UNMIBIH), and the Canadian Kandahar Provincial Reconstruction Team (KPRT) in Afghanistan. Paul also assists in the training of Canadian police contingents assigned to Afghan National Police training in Afghanistan.

TOBIE WEBERG
Tobie Weber is a 21 year law enforcement veteran who holds the rank of Deputy Inspector with the Milwaukee County Sheriff’s Office, State of Wisconsin. He currently is the Police Services Bureau Commander, which includes the Patrol Division, Criminal Investigation Division, Airport Security Division, Federal Task Forces, Dive Unit, and Explosives Ordnance Disposal (Bomb Squad). Previous assignments include Jail, Patrol, Detective, US Marshal’s Fugitive Task Force, Warrant Squad, Gun Unit, and Targeted Enforcement Unit. He has been a member of the SWAT Team continuously since 1996 and has held the positions of Technician, Team Leader and Training Officer. He was appointed to SWAT Commander in 2007, which he currently still serves in this capacity. He is a graduate of the FBI National Academy Session 243, FBI Hazardous Devices Executive Management Program, and Leadership in Crises Program at Harvard’s Kennedy School of Government as well as many other schools. He has served as an instructor in several different disciplines. He currently serves on the Executive Board for the Association of SWAT Personnel – Wisconsin (ASP-WI).

JOHN H. ZAMROK
John H. Zamroh is a decorated Marine Corps Vietnam veteran. He retired from NJ Municipal and State law enforcement after 24-years including service as a SWAT team leader. His 40+ years as a law enforcement firearms instructor includes five years as a full-time regional instructor for H&K®, K-3™ International Training Division and 10-years as the NJ State Range Master. He coordinated recruit and in-service firearms training and trained a new generation of trainers as, Assault Rifle and Subgun Instructors. John is now a consultant and provides training for Team One Network, Awareness Protective Consultants and supports IALEFI training as a Life Member. John is a Golden Eagle Life member of the NRA, a NRA certified instructor for handgun and shotgun and a NRA Chief Range Safety Officer. He also trained members of the national Army of Benin, Africa as a State Department contractor to prepare them for UN Peace Keeping operations in the Ivory Coast and the Congo.

JOB WILLIS
Joe retired from the United States Army as a Military Police First Sergeant after more than 20-years of service. His assignments have included Military Police Operations Sergeant, Special Reaction Team Commander, and Investigator. Throughout his career, he spent more than 5 years in foreign countries; Iraq, Germany, Honduras, and Korea. His military education includes DOD Less-Lethal Weapons Instructor, SRT Marksmen/Oberver, Military Police Instructor, Anti-Terrorism Advisor, Army Basic Instructor, Air Assault. Joe is a certified Master Army Ethics Instructor, Mediator (advanced) and a graduate of the Defense Equal Opportunity Management Institute. His last few military assignments include Operations Sergeant Major for a Combined Arms Training Brigade, Senior Enlisted Advisor for the Department of Military Science at West Point, and the West Point Equal Opportunity Program Manager.

ROBERT C. WILLIS
Robert C. Willis has trained federal, state, and local agencies and officers for over 25 years in the areas of defensive tactics, firearms, emergency vehicle operations, vehicle contacts, professional communications, constitutional law, report writing and numerous other disciplines. For a decade he co-presented the Gabor Press “Street Survival Seminar” across the USA and Canada. He still works as a police officer (part-time) and is a sworn deputy sheriff. Bob is a full-time Instructor at Northeast Wisconsin Technical College (NWTC) in Green Bay, Wisconsin. He often serves as a litigation consultant and “expert witness” and has testified in Federal and State Courts, Grand Jury Hearings, Coroner’s Inquests as well as Police Disciplinary Hearings to explain and critique the force and/or procedural actions of officers. Bob authored the original State of Wisconsin’s Defensive and Arrest Tactics Manual and has contributed articles to national publications.

MANNIFRED YATES
Fred is a retired U.S. Army veteran with an extensive Special Operations background in both the Special Forces and the Rangers. After the Army he became a Deputy Sheriff in North Carolina. He served as a SWAT Team Leader, Road Deputy, Patrol Sergeant, Firearms Instructor, Defensive Tactics Instructor, and Tactical Instructor. Fred also served as a Contract Officer overseas for the Department of Justice in both a Law Enforcement and a Police Training role. He served in several war-torn countries fulfilling those roles. After serving as a contract officer Fred went to work for the Heckler & Koch International Training Division for 7 years as an Instructor. He taught all the weapon disciplines as well courses ranging from Executive Protection to Tactical Incident Commander courses. He now instructs courses as an Adjunct Instructor for Team One Network, Simunition, IALEFI, and several other Law Enforcement & Military Training Entities.

HEATHER WILLIAMS
Heather Williams is Sergeant with the Chattanooga Police Department. She has worked in the patrol division, special investigations, and Crime Scene Unit. She is a member of the departments SWAT team. She has received extensive tactical training and is an instructor for Team One Network. She has written for the NTDA newsletter and is a member of the NTDA testing and evaluation program for female tactical gear. She has also presented at an IALEFI annual conference on training issues related to the female officers. Sergeant Williams has trained school resource officers in tactics specific to their environment and has taught Active Shooter Instructor courses for Team One Network. She graduated from The University of the South (Sewanee) with a degree in biology and chemistry. As a student athlete Heather earned All American honors in cross country, track and field and is a two-time National Champion in the 1500 meter run. Heather obtained her master’s degree in Criminal Justice from the University of Tennessee-Chattanooga.

MIKE WILLIAMS
Mike Williams is a 39 year law enforcement veteran and is currently the Training Coordinator for Team One Network. Mike retired in July of 2010 as Deputy Chief of Police at Chattanooga Police Department in Chattanooga, Tennessee. He ran the department’s day to day operations and was responsible for 650 sworn and civilian employees. He was a former director of training at the Chattanooga Police Academy and was full time SWAT Team commander for several years. As a 39 year Law Enforcement veteran and a 25 year veteran SWAT officer, he served as an operator, Team Leader and Team Commander and still acts as a senior advisor and trainer for Chattanooga SWAT. He is a member of the IALEFI Board of Directors and editor of its magazine, The Firearms Instructor. Mike testifies as an expert witness in State and Federal Courts on the Police Use of Force and tactical team operations and teaches Team One’s Tactical Commander Course.
ACTION TARGET and TEAM ONE NETWORK have formed a partnership creating newly designed courses to improve the knowledge of Range Masters, Firearms Instructors, Shoot House Instructors and Range Safety Officers. These updated courses will inform and instruct attendees of new technology in modern range, target design and training tactics.

This partnership will create the Action Target Academy powered by Team One Network.

- Range Master
- Range Safety Officer
- Chief Range Safety Officer
- Shoot House Instructor
- Defensive Pistol for the Concealed Carry
- Reactive Steel Target Instructor Workshop
- Lead Abatement
- Dynamic Use of Target Systems

Team One Network instructors will travel throughout the U.S. to conduct these courses with the latest edition of Action Targets products.
CZ-USA Armorer

CZ-USA firearms have quickly made a significant impact in the firearms industry in the United States. CZ-USA headquarters and warehouse facility are located in Kansas City, KS, where all distribution, warranty, and repair work is done. CZ-USA recognizes the need to have certified armors familiar with their firearms located throughout the United States and serving the law enforcement community. Team One Network is authorized by CZ-USA to conduct accredited armorer courses that will meet the needs and demands of forensic and law enforcement agencies. Upon completion of this training, participants will have a working knowledge and understanding of the CZ-USA firearm. This course is structured to provide participants with "hands-on" practical skills and theory on the cycle of function for the CZ-USA firearm(s) covered.

The following armorer certifications are available:
- P-07 Pistol & P-09 Pistol
- P-10 Pistol
- CZ-75 Pistol
- CZ Scorpion Carbine

Outcomes:
- Conduct proper disassembly and reassembly of the firearms and their sub-assemblies.
- Conduct preventative maintenance and inspection procedures applicable to each firearm type.
- Diagnose reported field problems relating to each firearm type.
- Service and repair each firearm type to include the installation of new components.

Duration: 1-Day (8-Hours) per weapon system.
Tuition: 1 day — $350.00, 2 days — $650.00, 3 days — $950.00, 4 days — $1250.00
Valid for: Certifications are valid for 3-years.

Equipment Required: Participants must bring wrap-around eye-protection. Team One Network and CZ-USA supply all tools and weapons.

Course Restrictions: Team One Network is authorized by CZ-USA to conduct armorer courses on their behalf. These courses are restricted to military, law enforcement, and licensed armed security only. For exceptions, please contact CZ-USA.

Benelli Shotgun Armorer

Benelli shotgun Armorer courses are for law enforcement/military personnel who are responsible for Benelli shotgun preventative maintenance, checks and service (PMCS). Each course is structured to provide each student with a practical understanding of the advanced features that make Benelli shotguns unique.

Armorer Courses Available:
- M-Series
- Nova/SuperNova

Outcomes:
- Conduct proper disassembly and reassembly of the firearms and their sub-assemblies.
- Conduct preventative maintenance and inspection procedures applicable to each firearm type.
- Diagnose reported field problems relating to each firearm type.
- Service and repair each firearm type to include the installation of new components.

Duration: 1-Day (8-Hours) per weapon system.
Tuition: 1 day — $350.00, 2 days — $650.00
Valid for: Certifications are valid for 3-years.

Equipment Required: Participants must bring wrap-around eye-protection. Team One Network and Benelli LE supply all tools and weapons.

Course Restrictions: Team One Network is authorized by Benelli to conduct armorer courses on their behalf. These courses are restricted to military, law enforcement, and licensed armed security only. For exceptions, please contact Benelli LE.
Ruger Armorer
Sturm, Ruger & Company, Inc. conducts Armorer Training Programs through Team One Network for training Law Enforcement and Military Personnel in the inspection, diagnosing, and servicing of Ruger firearms per factory standards.

The following armorer certifications are available:
- AR-556

Outcomes:
- Conduct proper disassembly and reassembly of the firearms and their sub-assemblies.
- Conduct preventative maintenance and inspection procedures applicable to each firearm type.
- Diagnose reported field problems relating to each firearm type.
- Service and repair each firearm type to include the installation of new components.

Duration: 1-Day (8-Hours) per weapon system.
Tuition: 1 day — $350.00
Valid for: Certifications are valid for 3 years
Equipment Required: Participants must bring wrap-around eye-protection. Team One Network and Ruger supply all tools and weapons.
Course Restrictions: Team One Network is authorized by Ruger to conduct armorer courses on their behalf. These courses are restricted to military, law enforcement, and licensed armed security only. For exceptions, please contact Ruger directly.

Springfield Armory Armorer
Team One Network Conducts Springfield Armory Armorer Courses on behalf of Springfield Armory. Our armorer courses are structured to provide each student with a practical understanding of the advanced features that make the Springfield Family of Firearms unique.

The following armorer certifications are available:
- XD/XDM Pistol
- XD Pistol
- 1911 Pistol
- M1A / M14 Rifle

Outcomes:
- Conduct proper disassembly and reassembly of the firearms and their sub-assemblies.
- Conduct preventative maintenance and inspection procedures applicable to each firearm type.
- Diagnose reported field problems relating to each firearm type.
- Service and repair each firearm type to include the installation of new components.

Duration: 1-Day (8-Hours) per weapon system.
Tuition: 1 day — $250.00, 2 days — $500.00, 3 days — $750.00, 4 days — $1250.00
Valid for: Certifications are valid for 3-years
Equipment Required: Participants must bring wrap-around eye-protection. Team One Network and Springfield Armory supply all tools and weapons.
Course Restrictions: Team One Network is authorized by Springfield Armory to conduct armorer courses on their behalf. These courses are restricted to military, law enforcement, and licensed armed security only. For exceptions, please contact Springfield Armory.

EMERGENCY MEDICINE & TACTICAL CASUALTY CARE

CAMELBAK

Medical Response for the LE Instructor
This one day course is for the LE Instructor who conducts high-level training that may include Defensive Tactics, Firearms, SWAT, and Simulations. The goal of this course is to teach the LE Instructor how to handle medical emergencies that may occur during training properly.

Outcomes:
- Identify medical needs and team health concerns
- Prevent, identify and treat severe training injuries (gunshot wounds, falls, broken bones, etc.)
- Prevent, detect and treat environmental training injuries (dehydration, heat, and cold injuries)
- Review first aid and trauma kit materials requirements for training environments
- Review hazardous material concerns for training environments
- Participate in realistic, practical exercises to reinforce lessons learned in training

Duration: 1-Days (8-Hours)
Tuition: $295.00
Ammunition: None

Equipment Required: Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Participants should wear clothing suitable for training (long sleeves suggested), but similar to garments worn while working. Participants are encouraged to bring their first aid/trauma kit.

Tactical Emergency Medicine Support
The TEAM ONE TEMS (Tactical Emergency Medicine Support) course is a 3-day comprehensive introduction into the provision of tactical medical support to law enforcement special weapons and tactics (SWAT) personnel. The TEMS course begins with an overview of the provision of medicine in austere environments and, in those situations in which SWAT or tactical teams function.

The course is for first responders, EMT’s, paramedics, and physicians who work with tactical operation teams and bomb squads. Participants should also have a working knowledge of both pistol and shotgun use and safety.

Outcomes:
- Facilitate and manage team health
- Conduct treatment under fire – life-saving procedures
- Conduct treatment across the barricade
- Manage and treat less lethal injuries victim
- Integrate into tactical team movement
- Familiarization with less lethal munitions, chemical irritants, and hazardous materials

Duration: 3-Days (24-Hours)
Tuition: $995.00
Ammunition: 300 rounds Pistol, 300 rounds Rifle or 50 rounds Shotgun

Equipment Required: Pistol and a Rifle or Shotgun, duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wrap-around eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working. The participant should also bring their first aid/trauma kit.
Tactical Casualty Care
This training begins with an introduction to three critical components of Tactical Casualty Care: 1) quickly and accurately assess and triage trauma, 2) stop bleeding and, 3) manage an airway. The whole purpose of this training is to save lives while the tactical situation is still hot and threats are still active, and there are no other options. At the end of training, officers will be better prepared to manage serious injuries to themselves, fellow officers, and civilians caught in the hot zone. Midway through the day, we’ll switch to “full kit” and run one scenario after another, so everyone has a chance to experience treating different types of trauma on themselves and other role-players.

Training Outcomes
• Identify and triage casualties during tactical situations
• Provide “care under fire”
• Transport casualties to safer locations

Duration: 1-Day / 8-hours
Tuition: $295.00
Ammunition: None

Equipment Required: Pistol and a Rifle or Shotgun, duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Participants should wear clothing suitable for training, but similar to garments worn while working. The participant should also bring their first aid/trauma kit.

EXECUTIVE PROTECTION

Executive/Victim/Witness Protection Operations
Taught in conjunction with Tony Scotti, this concentrated course gives students solid credentials in theory and the practice of executive protection of both public and private individuals. Training includes both theory and a series of hands-on practical scenarios that will train students to detect, preclude, and, when necessary, repel attacks.

Outcomes:
• Risk and threat assessments
• Advancing the principal’s itinerary
• Operation detailing and planning
• Surveys
• Walking the principal
• Driving exercises
• Deployment of automatic weapons
• Tactical firing techniques
• Rapid extraction of the principal

Duration: 6-Days (48-Hours)
Tuition: $1,495.00
Ammunition: 500 Rounds Pistol

Equipment Required: Wraparound eye protection, ear protection, brimmed hat, pistol with three magazines and holster, duty belt, concealable hip holster, sports coat and business casual clothes for practical scenarios and a flashlight.

Firearms Operations for the Executive Protection Specialist
This five-day course concentrates on weapons handling and deployment for EP specialists. Students will be taught techniques on three different firearms, pistol, sub gun and shotgun and exposed to situations requiring the use of different skills and firearms.

Outcomes:
• Address firearms safety and handling issues unique to EP details
• Practice shooting techniques and tactical weapons handling drills for EP Operations
• Carry and deploy weapons as part of an EP detail
• Practical scenarios focus on firearms issues during EP operations; arrival/departure, escorts, etc.

Duration: 5-Days (40-Hours)
Tuition: $795.00
Ammunition: 500 rounds of Pistol, 500 Rounds of Sub Gun and 100 rounds of Shotgun

Equipment Required: Pistol and a Submachine Gun or Short Barrel Rifle. Concealed carry duty gear (holster, magazine pouches, etc.), body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working.

FIRESAMS

Long Range Precision Shooting Course
A three-day shooting school that will give the designated marksman the opportunity to shoot from distances of 100 yards to 1000 yards. Minimal time will be spent in the classroom reviewing scope adjustments, minutes of angle, maintenance, data books, determining wind values, and basic shooting positions. Shooters will fire from 100, 200, 400, 600, 700, 800 and 1,000 yards. In addition to firing their own weapons, Team One Network will provide several Savage 110 BA .338 Lapua with scopes and ammunition for fire from the longer distances.

Outcomes:
• Accurately engage targets with a scoped rifle from 100 to 1000 yards

Duration: 3-Days (24-Hour)
Tuition: $595.00
Ammunition: 150 Rounds

Equipment Required: Scoped rifle capable of accurately engaging targets between 100 and 1,000 yards. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working. The participant should also bring a spotting scope, binoculars, cleaning equipment and shooting mat.
Pistol Operations

Because the pistol remains the primary firearm for police work, this course focuses on the development of practical, close-quarters shooting skills that can save officers’ lives in real-world situations. Emphasis is placed on improving basic shooting skills through range sessions, then using these new-found abilities in high-energy, close-quarters, live fire exercises.

**Outcomes:**
- Field stripping and basic maintenance
- Practice pistol safety and handling
- Accurately use a pistol to engage targets in Low Light conditions
- Accurately use a pistol to engage multiple targets
- Accurately use a pistol to engage moving targets and shoot while moving
- Perform tactical reloads and stoppage drills
- Perform weapons retention techniques
- Efficiently draw and fire the pistol
- Practice support hand shooting techniques

**Duration:** 3-Days (24-Hours)

**Tuition:** $95.00

**Ammunition:** 1,000 Rounds

**Equipment Required:** Pistol, duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working.

---

Russian Firearms Familiarization

At the end of this intensive three-day course, students will receive a certification equivalent to the Armed Forces Russian Weapons Familiarization Course certificate. Through a mix of classroom work and range time, students will fire a variety of Russian weapons including the Makarov PM, the AK-47 and AK-74, the AK-100 series, and the RPD light machine gun. Other weapons that will be examined, handled, and disassembled include the PK and PKM heavy machine guns (equivalent to the US M60), and the RPG-7, with both electro-optical and iron sights.

**Outcomes:**
- Accurately identify Russian firearms
- Discuss ballistics of common Russian firearms
- Assembly and disassembly procedures
- Fire various Russian firearms for familiarization

**Duration:** 3-Days (24-Hours)

**Tuition:** $95.00

**Ammunition:** Included

**Equipment Required:** Duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working.

---

Police 1911 Pistol

This course is for the Police Officer who carries a 1911 single action pistol. The course involves both classroom and range time for a complete understanding of the capabilities of the 1911 pistol and sound techniques for its use.

**Outcomes:**
- Practice pistol safety and handling with the 1911 pistol
- Field strip and perform operator level maintenance on the 1911 pistol
- Select ammunition, lights, and holsters for the 1911 pistol
- Accurately use a pistol to engage targets in Low Light conditions
- Accurately use a pistol to engage multiple targets
- Accurately use a pistol to engage moving targets and shoot while moving
- Perform tactical reloads and stoppage drills
- Perform weapons retention techniques
- Efficiently draw and fire the pistol
- Practice support hand shooting techniques

**Duration:** 3-Days (24-Hours)

**Tuition:** $95.00

**Ammunition:** 1,000 rounds

**Equipment Required:** 1911 Pistol with three magazines, duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working.

---

Suppressor Workshop

This course will provide information on the types, designs, benefits, and capabilities of Suppressors. Discuss the safety aspect and demonstrate the ways to attach a variety of suppressors. All attendees will have an opportunity to shoot the 9mm Pistols, 9mm and .45 Cal. Carbines and 5.56, 300 Blackout, .308 Cal. and .338 Lapua Rifles firearms with suppressors installed.

**Outcomes:**
- Discuss safety issues associated with Suppressors
- Attach and detach suppressors from an assortment of firearms
- Review designs of suppressors
- Practice fouling and cleaning suppressors
- Review accuracy factors associated with suppressors
- Observe, experience, and discuss recoil when using suppressors

**Duration:** 1-Day (8-Hours)

**Tuition:** $95.00

**Ammunition suggestions, not requirements:** 100 rounds 9mm, 60 rounds 5.56 mm, 20 rounds .308 Cal, 10 rounds .338 Lapua.

**Equipment Required:** Duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working. All the following Firearms with suppressors are provided; Springfield XDm 9mm, Lancer .300 Blackout, Savage 5.56, Ruger 5.56, Savage .308, Savage .338 Lapua.
Tactical Shotgun Operator

The shotgun is one of the most effective and versatile tools available to the police officer. This course will give police officers the skills necessary to effectively operate a tactical shotgun in all types of situations that will maximize the use of this weapon. The course includes both classroom and live-fire range time.

Outcomes:
- Field stripping and basic maintenance
- Practice shotgun safety and handling
- Accurately use a shotgun to engage targets in Low Light conditions
- Accurately use a shotgun to engage multiple targets
- Accurately use a shotgun to engage moving targets and shoot while moving
- Perform tactical reloads and stoppage drills
- Perform weapons retention techniques
- Select appropriate ammunition for tactical operations
- Discuss and practice patterning
- Use and handling of a shotgun during subject control and active countermeasures

Duration: 2-Days (24-Hours)

Tuition: $495.00

Ammunition: 200 Rounds 00 Buck, 200 Rounds Skeet, 50 Rounds Slug, 50 Rounds Pistol

Equipment Required: Shotgun, Pistol, duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working.

Benelli Shotgun Instructor Workshop

This workshop is an instructor development course. Participants must have a current certification as police firearms instructors. The Benelli M-Series, semi-automatic shotguns are some of the most effective and versatile tools available to the police officer. This course will refine the skills of police shotgun instructors to teaching skills necessary to develop and run tactical shotgun programs that will maximize the capabilities of this weapon. The course includes both classroom and live-fire range time.

Outcomes:
- Explain cycle of function of Benelli M-Series and NOVA shotguns.
- Train operator maintenance on Benelli M-Series and NOVA.
- Discuss tactical considerations when deploying shotguns
- Explain safety concerns of employing semi-auto tactical shotgun
- Review course development best practices
- Explain instructors’ responsibilities for tactical shotgun training
- Tactical loading and reloading techniques
- Ammunition selection
- Patterning
- Carry methods
- Demonstrate and train Live fire on multiple targets using a semi-auto tactical shotgun

Duration: 1-Days (8-Hours)

Tuition: $295.00

Ammunition: 100 Rounds 00 Buck, 100 Rounds Birdshot, 15 Rounds Slug, 50 Rounds Pistol

Equipment Required: Benelli M-Series Shotgun with a pouch for 10-rounds and Pistol with three magazines. Duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working.

Concealed Carry Instructor Workshop

This course is designed to merge combative handgun techniques with everyday carry and concealment of the personal handgun. The course combines classroom and range time to give the student a solid understanding of what is needed to deploy the combative handgun from a covering garment.

Outcomes:
- Developing the combative mind
- Gun and holster selection
- Locating your own personal carry “sweet spot”
- Garment removal techniques
- Draw techniques (with an emphasis on belt carry)
- Enhancing combative pistol and holster skills
- Movement while shooting
- Seated shooting and shooting in/around vehicles
- Proper ID and engagement

Duration: 2-Days (16-Hours)

Tuition: $495.00

Ammunition: 600 Rounds Pistol

Equipment Required: Pistol, concealed carry duty gear (holster, magazine pouches, etc.), body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training. Emphasis is placed on off-duty carry. Participants are encouraged to bring a variety of holsters.

Dynamic Use of Target Systems

This course will provide a series of dynamic training exercises that will help you improve your live fire-training program. We will be incorporating a variety of target options that provide a pathway to improve the skills of your students. In law enforcement communities around the world, we know that realistic training is the key to giving students the experience necessary to prevail in stressful situations. The course will offer some of our ideas on the use of a variety of targets in creating a building block approach to realistic training during live-fire exercises.

Outcomes:
- Effectively use various targets; paper, three dimensional, steel, reactive, and moving.
- Effectively integrate range props such as barricades.

Duration: 2-Days (16-Hours)

Tuition: $495.00

Ammunition: 600 Rounds Pistol

Equipment Required: Pistol with three magazines each, Duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working.

To view course schedules or to register, go to www.teamonenetnetwork.com or call 540.699.8060
Master Firearms Instructor
This course will develop and test the skills of the Master Firearms instructor. The firearms that will be covered are the revolver, pistol, shotgun, semi-auto rifle, submachine gun, and carbine. Each student will conduct a live fire range program; pass a shooting standard drill and written test on all firearms to successfully complete the course.

Outcomes:
- Review responsibilities of firearms instructors
- Review course and target design and selection
- Develop a realistic firearms training program
- Train others on safety rules and equipment
- Train others on low light/laser techniques
- Train others to integrate optics
- Train others to shoot under various conditions
- Train others on concealed carry operations
- Train others to fire on the move at moving targets
- Train others using Relative Position Drills
- Train others using Force-on-Force Munitions

Duration: 5-Days (40-Hours)
Tuition: $995.00
Ammunition: 500 Semi-automatic Handgun, frangible; 250 Revolver; 400 Rifle, no AP, 300 Shotgun (bird shot or 00 buck)

Equipment Required: Shotgun w/ammo pouches and sling, Rifle w/ two magazines and pouches and sling, Revolver w/two-speed loaders and holster, Carbine or submachine gun with two magazines and ammo pouches and sling. Duty gear (holster, magazine pouches, etc.), body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working.

Patrol Rifle Instructor
This course is intended for senior personnel who train officers in the use of rifles and carbines. Students will develop critical skills needed in both fundamental and advanced teaching techniques. Instruction will include both classroom and range time.

Outcomes:
- Review responsibilities of firearms instructors
- Review course and target design and selection
- Develop an agency patrol rifle program
- Develop a realistic patrol rifle training program
- Train others on safety rules and equipment
- Train others on low light/laser techniques
- Train others to integrate optics
- Train others to shoot under various conditions
- Train others to fire on the move at moving targets
- Train others using Relative Position Drills
- Train others using Force-on-Force Munitions
- Train others on Patrol Rifle handling during subject control

Duration: 5-Days (40-Hours)
Tuition: $795.00
Ammunition: 750 Rounds of Rifle and 50 Rounds of Pistol

Equipment Required: Pistol and Patrol Rifle with three magazines each. Duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working.

Shoot House Instructor
Shoot house training provides officers with the ability to hone their shooting skills under realistic, high-stress conditions. This course offers instructors all the tools necessary to build a shoot house program and improve their fellow officers’ shooting skills.

Outcomes:
- Identify, mitigate, and train others on safety issues in the shoot house
- Examine the responsibilities of the shoot house instructor
- Review and discuss Shoot House Program development
- Explore methods to integrate the range and the shoot house into cohesive training
- Discuss methods of working with tactical teams in the shoot house
- Participate in live fire shoot house exercises (as an instructor and participant)

Duration: 2-Days (16-Hours)
Tuition: $495.00
Ammunition: 200 Rounds Pistol

Equipment Required: Pistol, duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working.

Sniper Instructor
This course is intended for senior sniper personnel who train new snipers. Instruction will include both classroom and range time. Upon completion, students will be able to create, develop, and implement sniper training programs that meet all the current law enforcement standards.

Outcomes:
- Review selection of new team members
- Review sniper team leader responsibilities
- Review liability issues for snipers and team leaders
- Train and coach Police Snipers
- Train and coach Observers
- Write and issue effective Warning orders
- Develop plans and train others for sniper support during operations
- Train others on sniper-initiated operations

Duration: 5-Days (40-Hours)
Tuition: $795.00
Ammunition: 150 Rounds, 50 Rounds Pistol

Equipment Required: Scoped Rifle and pistol with three magazines. Duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working. Participants should also bring a ghillie suit, spotting scope, binoculars, cleaning equipment and a shooting mat.
Tactical Submachine Gun Instructor

At the conclusion of this intensive course, students will have developed all the skills necessary to train their tactical personnel in the use and deployment of submachine guns. Both teaching skills and shooting skills will be emphasized, as well as developing the winning mindset to prevail under any condition.

Outcomes:
- Review responsibilities of firearms instructors
- Review course and target design and selection
- Develop an agency Submachine Gun program
- Develop a realistic Submachine Gun training program
- Train others on safety rules and equipment
- Train others on low light/laser techniques
- Train others to integrate optics
- Train others to shoot under various conditions
- Train others to fire on the move at moving targets
- Train others using Relative Position Drills
- Train others using Force-on-Force Munitions
- Train others on Submachine Gun handling during subject control

Duration: 5-Days (40-Hours)
Tuition: $795.00

Ammunition: 1,000 Rounds Pistol

Equipment Required: Submachine gun and Pistol with three magazines each. Duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working.

Tactical Shotgun Instructor

The shotgun is one of the most effective and versatile tools available to the police officer. This course will give police firearms instructors the teaching skills necessary to develop and run tactical shotgun programs that will maximize the use of this weapon. The course includes both classroom and live-fire range time.

Outcomes:
- Review responsibilities of firearms instructors
- Review course and target design and selection
- Develop an agency shotgun program
- Develop a realistic shotgun training program
- Train others on safety rules and equipment
- Train others on low light/laser techniques
- Train others to integrate optics
- Train others to shoot under various conditions
- Train others to fire on the move at moving targets
- Train others using Relative Position Drills
- Train others to select appropriate ammunition for tactical operations
- Train others on patterning
- Train others on Shotgun handling during subject control

Duration: 5-Days (40-Hours)
Tuition: $795.00

Ammunition: 750 Rounds Subgun, 50 Rounds Pistol

Equipment Required: Submachine gun and Pistol with three magazines each. Duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working.

Range Safety Officer

The Range Safety Officer program was developed in response to the demand for a nationally recognized range safety officer certification. Range Safety Officers are people who possess the knowledge, skills, and attitude essential to organizing, conducting, and supervising safe shooting activities and range operations.

Outcomes:
- Review the role of the Range Safety Officer
- Review range Standard Operating Procedures
- Conduct range inspection and enforce range rules
- Conduct Range Safety Briefings
- Conduct Range Emergency Procedures
- Assist shooters with firearm stoppages and malfunction

Duration: 1-Day (8-Hours)
Tuition: $295.00

Ammunition: None

Equipment Required: Submachine gun and Pistol with three magazines each. Duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working.
Chief Range Safety Officer

Chief Range Safety Officers are people who possess the knowledge, skills, and attitude essential to organizing, conducting, and supervising safe shooting activities and range operations. This course requires the NRA Range Safety Officer certifications as a prerequisite. The successful completion of this course will allow individuals to educate, train, and certify Range Safety Officers.

Outcomes:
- Supervise Range Safety Officers (RSOs)
- Conduct range inspection and enforce range rules
- Review the role of the Chief Range Safety Officer
- Conduct Range Emergency Procedures
- Review range Standard Operating Procedures
- Assist firing with firearm stoppages and malfunction
- Conduct Range Safety Briefings

Duration: 2 Days (16 Hours)

Tuition: $495.00

Ammunition: None

Equipment Required: Pistols with three magazines each. Duty belt (or tactical vest) with all issued gear, body armor, flashlight, and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working.

Range Master

The Range Master has overall charge of the range. This position usually occupied by the most experienced Firearms Instructor. This course will further develop the Firearms Instructors’ knowledge to become a Range Master by expanding their skills in the safe and efficient management of a firearms range and training program.

Outcomes:
- Review Range Master duties
- Review range safety issues
- Review ammunition, ballistics, evaluation, and selection
- Manage range environmental issues
- Develop and manage agency ranges
- Manage range resources & logistics
- Select and design targets & target systems
- Plan for and respond to range emergencies
- Mitigate exposure to Range Hazards

- Implement realistic scenario-based training
- Properly communicate with all audiences as a range master
- Integrate marking cartridges for force on target training
- Conduct safe live fire scenarios
- Develop department range policies and procedures
- Review legal and liability concerns for department ranges
- Review and analyze critical incidents

Prerequisites:
- Completed a recognized Firearms Instructor Course
- Completed the Range Master on-line program (part of this course)

Duration: 5 Days (40 Hours)

Tuition: $995.00

Ammunition: 600 Rounds Frangible

Equipment Required: Pistols with three magazines each. Duty belt (or tactical vest) with all issued gear, body armor, flashlight, and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system. Eye & ear protection and brimmed hats are worn during live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working.

Reactive Steel Target Instructor Workshop

This concept is the underlying theory behind steel targets. For every shot that is on target, you get instant feedback from seeing the target react and hearing that satisfying “clang” as the bullet makes an impact. While steel targets are a fantastic training tool, they add a level of safety considerations beyond traditional target shooting. Therefore, you have to consider what is behind the target as well as what could potentially be hit in the area where the bullet is being redirected. If that redirection is improper or inconsistent, it can pose a significant risk. This course will cover the many different types of steel targets and the proper and safe use of them.

Steel targets that will be utilized:
- Plate racks
- Pepper poppers
- Silhouettes w/ hostage and pelvic targets
- IDPA and Tactical torso’s with reactive centors and heads
- Dueling trees

Outcomes:
- Safely use steel reactive targets
- Enforce steel target safety rules
- Familiarize with steel target design
- Explain angle of deflection
- Explain target hardness
- Select appropriate ammunition
- Inspect steel targets
- Emplace targets for most effective training

Duration: 2 Days

Tuition: $495.00

Ammunition: 600 Rounds Pistol

Equipment Required: Pistols with three magazines each. Duty belt (or tactical vest) with all issued gear, body armor, flashlight, and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working.
Active Shooter Instructor

This course is designed to give the instructor the knowledge and skill to train first responding officers to an Active Shooter incident. Active Shooter incidents are becoming more prevalent in law enforcement, and the need to train officers in how to respond has become a vital part of law enforcement training. Instructor development issues will also be discussed as students will be “hands-on” teaching practical skills throughout this course. These practical skills will be taught with its focus on tactics. Firearms drills will be taught using Force-on-Force Munitions. However, these same drills can later be applied to “live-fire” range drills or high-level scenario-based training.

Outcomes:
- Lessons learned from previous Active Shooter incidents
- Determining the threat
- Use of Site surveys to aid pre-planned responses
- First responder tactics
- Development of Patrol Response Team
- Breaching tactics and capabilities

Duration: 3-Days (24-Hours)
Tuition: $895.00

Ammunition: Included

Equipment Required: Pistol and a Rifle or Shotgun, duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working. Participants should also bring a training impact weapon, groin protection, and mouthpiece.

Active Countermeasures Tactical Instructor

This program is designed to prepare instructors to train tactical operators and patrol officers in how to utilize control tactics with their firearms drawn. The use of control tactics with a drawn handgun is often left out of traditional defensive tactics training program. Initially designed for tactical teams for High-Risk Entries, these tactics have found increased need by patrol officers. Even though burglary complaints, man-with-a-gun calls, or the response to an active shooter may result in an officer responding with his handguns drawn only to find out this has turned into a subject control situation. This program will cover the full range of instruction including lecture, demonstration, physical technique training, simulation training, and testing procedures. The emphasis of this program is to get an instructor up to speed to train their tactical operators and patrol officers.

Outcomes:
- Tactical weapon control theory
- Strategies for teaching psychomotor skills
- Drawn firearm subject control tactics
- Decentralization and stabilization tactics
- Training props and protective equipment
- Simulation Training Strategies
- Use of Force-on-Force® Ammunition
- Use of RedMan® Protective Equipment

Duration: 5-Days (40-Hours)
Tuition: $795.00
Ammunition: None

Equipment Required: Pistol, duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working. Participants should also bring a training impact weapon, groin protection, and mouthpiece.

Cell Extraction & Control Systems Instructor

This course was designed to prepare new instructors to implement cell extraction tactics in their institutions. This course fully addresses all aspects of verbal de-escalation, physical stabilization, and restraint. The program introduces “Pad Subduing” Tactics developed to deal with violent subject resistance in both close quarter and larger living areas.

Outcomes:
- The purpose of force cell moves
- Entry drills for 3 to 5 person teams
- How to establish cell extraction teams
- Use of shield tactics
- Contingency planning and operations
- Use of restraints & control devices
- Importance crisis management teams
- Support personnel and squads

Duration: 5-Days (40-Hours)
Tuition: $795.00
Ammunition: None

Equipment Required: Duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Participants should wear clothing suitable for training, but similar to garments worn while working. Participants should also bring a helmet with drop shield, protective equipment, body armor, gas mask and riot shield.

To view course schedules or to register, go to www.teamonenetwork.com or call 540.699.8060
Correctionsal Emergency Response Team (CERT®) Instructor
This program is designed to prepare new instructors to implement CERT Tactics for their Correctionsal Emergency Response Teams. This program will cover the full range of instruction including lecture, demonstration, physical technique training, simulation training, and testing procedures. The emphasis of this program is to get an instructor up to speed to train correctionsal personnel in special team response to both large and small disturbance emergencies.

Outcomes:
- Correctional use-of-force control theory
- American correctional disturbances will be reviewed and debriefed
- Team development, personnel selection, and equipment selection
- STAR tactic: team stabilization strategies
- Cell entry tactics will be developed using soft shields
- Large area multiple inmate disturbances tactics
- Stabilization/handcuffing and the use of special restraints
- Incident documentation procedures
- Use of RedMan® Protective Equipment

Duration: 5-Days (40-Hours)
Tuition: $795.00
Ammunition: None

Equipment Required: Duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Participants should wear clothing suitable for training, but similar to garments worn while working. Participants should also bring a helmet with drop shield, protective equipment, body armor, gas mask and riot shield.

Force on Force® Instructor
This course was designed to assist Law Enforcement and Military personnel with the ability to conduct Use of Force training utilizing the Force on Force® less-lethal training ammunition. This training will prepare instructors to provide safe and realistic training by understanding the correct application of the Force on Force® less-lethal cartridge, protective clothing, and helmets. Proper use and installation of available less-lethal conversion kits are also covered.

Attending instructors will learn the appropriate instructional methods for tactical isolation exercises and scenarios in realistic training. Those who complete this course will be able to develop Scenario and Isolation Exercise templates, select safe locations conducive to training, utilize the proper safety equipment, train and assign various support personnel, conduct and evaluate the tactical exercises and document the officers’ performance. Defensive evaluation and debriefing skills are role-modeled throughout the course. This is a hands-on tactical training course.

Outcomes:
- Employ Seven Levels of Simulation
- Conduct Use of Force training with Force-on-Force® Marking Cartridges
- Identify, explain, and properly use Force on Force® less-lethal conversion kits, marking cartridges, protective clothing, and helmets
- Design and conduct Isolation Drills and full scenarios.
- Maintain Force-on-Force® Conversion Kits, protective clothing, and helmets
- Train role-players to safely enhance training
- Reduce risk with triple check safety rules
- Select and safely manage temporary training locations
- Supervise and direct reality-based training support personnel
- Evaluate tactical exercises and document the performance of officers
- Discuss the use of RedMan® Training Gear with Force-on-Force® Marking Cartridges

Duration: 3-days (20-Hours)
Tuition: $795.00

Equipment Required: Pistol and a Rifle or Shotgun, duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working. Participants are advised to wear long-sleeve shirts. It is highly recommended that each student provide their own Converted Marking Cartridge Firearm and certified protective gear for force-on-force training. If the participant’s agency is unable to provide this training equipment, the necessary equipment is available however the student may not be issued a training weapon similar to their duty weapon.

After Action Review (AAR) Facilitator
Hotwashes and Debriefs That Work
People will get more out of an effectively conducted after-action review (AAR) than the experience itself. An AAR is a professional discussion of a training or operational event that focuses on identifying what happened, why it happened and ways to improve. They provide us an opportunity to contextualize an experience and facilitate learning. Without them participants will learn, but do they learn what the organization expects?

AARs give us the ability to leverage the way an individual experiences an event to enhance the learning for that individual and collect lessons learned to improve the organization.

Training Outcomes:
- Facilitate conversations in a manner that activates reflective thinking to develop decision making.
- Effectively facilitate After Actions Reviews that are applicable to law enforcement operations.
- Objectively evaluate CLEAR Communication, Legal Authority, Effective Use of Emotional Intelligence, Adaptive Decision Making, and Respect used during law enforcement operations.
- Manage common communication styles that can hinder and improve facilitated conversations.
- Teach others to learn from conflict.
- Capture lessons learned to integrate AAR outcomes into training and policy efficiently.

Duration: 1-Days (8-hours)
Tuition: $295.00
Ammunition: None
Equipment Required: None

To view course schedules or to register, go to www.teamonenetwork.com or call 540.699.8060
INSTRUCTOR CERTIFICATIONS (CONT’D)

Force on Force®/RedMan® Simulation Instructor
This program is designed to provide instructors with a complete program for training their personnel in the use of defensive tactics and integrated use-of-force training programs utilizing Force on Force® Training Munitions and RedMan® Training Gear. Instruction will deal with incorporating the instructors’ existing techniques and tactics into tactical communication, subject control, aerosol sprays, impact weapons, and lethal force. The emphasis of this program will be the incorporation of firearms into defensive tactics training to overcome the tactical fixation that often accompanies duty performance that was trained in module format with no integration of the force decision-making. This program will cover the full range of instruction including lecture, demonstration, scenario development, and reality-based simulation training, and testing procedures. This course will provide the instructors with up-to-date safety procedures, cutting-edge equipment available, and procedures on how to conduct safe and realistic training.

Outcomes:
- Employ Seven Levels of Simulation
- Conduct Use of Force training with RedMan® Training Gear and Force-on-Force® Marking Cartridges
- Identify, explain, and properly use different components of RedMan® Training Gear, Force on Force® less-lethal conversion kits, marking cartridges, protective clothing, and helmets
- Design and conduct Isolation Drills and full scenarios
- Maintain RedMan® Training Gear and Force-on-Force® Conversion Kits, protective clothing, and helmets
- Train role-players to safely enhance training
- Reduce risk with triple check safety rules
- Select and safely manage temporary training locations
- Supervise and direct reality-based training support personnel
- Evaluate tactical exercises and document the performance of officers

Duration: 3-Days (24-Hours)
Tuition: $695.00

Low Light/Laser Instructor
More than 60% of officer-involved shootings occur between 6:00 p.m. and 6:00 a.m. This course is designed for LEOS Firearms Instructors to instruct their officers to gain skills and develop an ability to win a confrontation during low light situations. This course will explore the tactical advantages of multiple lighting systems and techniques. Instructors will explore techniques and drills to train department personnel with handheld and weapon mounted lights and optics and laser sights. Students must pass a written test, live fire standards drills and instructor evaluations to complete the course successfully. This is an instructor development course.

Outcomes:
- Instruct others on the effects of low light on eyesight
- Instruct others on the use of Night sights, Lasers, and Optics
- Instruct others on the tactical use of flashlights and ambient lighting
- Instruct others on the tactical use of firearm mounted lights and lasers
- Manage agency of flashlights
- Reduce agency risk during limited visibility training and operations

Duration: 3-Days (24-Hours)
Tuition: $595.00
Ammunition: 400 Rounds Pistol, 100 Rounds of Rifle or Shotgun

Equipment Required: Pistol and a Rifle or Shotgun, duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working.

Mechanical Breaching Instructor
The breacher, like all other specialty team members, must be given the training that ensures he is proficient and therefore successful during actual operations. The primary objective of this program is to provide students with a working knowledge of manual breaching tools and techniques. This course will address manual breaching, power assisted, and vehicle assisted tools as well as shotgun breaching rounds.

Outcomes:
- Describe types of doors and windows and their construction
- Instruct others on strike points and tools for various kinds of doors
- Instruct others on breach and rake techniques for different window types
- Instruct others on the collection of breaching intelligence
- Instruct others on the identification of various kinds of locks and barricades
- Train others to select primary and secondary entry points
- Conduct breaching instruction and evaluate practical exercises

Duration: 3-Days (24-Hours)
Tuition: $595.00
Ammunition: None

Equipment Required: Pistol and a Rifle or Shotgun, duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats, and gloves will be worn during breaching. Participants should wear clothing suitable for training (long sleeves suggested), but similar to garments worn while working.

To view course schedules or to register, go to www.teamonenetwork.com or call 540.699.8060
RedMan® Instructor
This program is designed to prepare the instructor to train and supervise demonstrators in the proper use of RedMan® Training Equipment. This training prepares law enforcement and military trainers to supervise adequately trained assistant instructors and role-players.

This course focuses on instructor development and the incorporation of RedMan® Training gear into an agency’s training program. Instructors who attend this training can easily integrate lessons learned into training for techniques, tactics, and drills that utilize tactical communication, subject control, aerosol sprays, impact weapons, and lethal force. Instructors will be prepared to use The Seven Levels of Simulation to progressively train their trainees through a sequential, safe process toward skill mastery. This course will develop the building blocks to assist instructors in developing the skills necessary to lead to future training scenarios. Using the “isolation exercise” concept, instructors will understand, participate in, and learn how to train their demonstrators in how to cover this crucial middle ground.

Outcomes:
- Employ Seven Levels of Simulation
- Conduct Use of Force training with RedMan® Training Gear
- Identify, explain, and properly use different components of RedMan® Training Gear and suits
- Design and conduct Isolation Drills and full scenarios
- Maintain and repair RedMan® Training Gear
- Train role-players to use RedMan® to enhance training safely
- Reduce risk with triple check safety rules
- Select and safely manage temporary training locations
- Supervise and direct reality-based training support personnel
- Evaluate tactical exercises and document the performance of officers
- Discuss the use of Force-on-Force® Marking Cartridges with RedMan® Training Gear

Duration: 3-Days (24-Hours)
Tuition: $595.00
Ammunition: None

Tactical Ballistic Shield Instructor
The tactical shield can be a very useful tool for tactical teams although many agencies fail to understand the full potential of this versatile piece of equipment. This course will explore the many uses of the tactical shield allowing the students to train in a variety of scenarios. The students will be able to select and develop techniques that will best work in their situation. The course includes written and practical test components.

Outcomes:
- Train others on shield deployment tactics and equipment
- Train others on, “10 Shield Needs”
- Train others on shield mounting techniques
- Train others on individual shield shooting skills
- Train others on team shield stacking
- Train others on tactical rescue operations using ballistic shields
- Conduct a survey of shield types and ballistic shield use case studies
- Description of shield materials ballistic performance

Duration: 3-Days (24-Hours)
Tuition: $595.00
Ammunition: 400 Rounds Pistol, 100 Rounds Long Gun

Equipment Required: Pistol and a Rifle or Shotgun, duty belt (or tactical vest) with all issued gear, body armor, flashlight, and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wrap around eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working. The participant should also bring a ballistic shield and back-up, support side pistol.

Basic ATV Safety and Law Enforcement Patrol Techniques
This 3-Day course is designed to certify officers in ATV Safety to comply with state laws. The course will be a combination of classroom, scenario and outdoor training. At the completion of this course the officers will be expert riders, but safer riders. The course is designed to provide the officers with a chance to become familiar with ATV operation and patrol techniques in a controlled setting. Officers will learn about ATV laws, ATV maintenance/safety checks, proper riding techniques, proper riding gear, how to conduct law enforcement stops/pursuits, and officer safety concerns unique to ATV enforcement. The course will also teach officers how to work in pairs and communicate while on patrol effectively. Officers will be exposed to scenarios that will get them used to drawing their firearm and seeking available cover while conducting ATV patrol. This course will help reduce departmental ATV accidents, injuries, and property damage.

Outcomes:
- Demonstrate and effectively operate an ATV in a safe manner.
- Work in pairs and conduct ATV enforcement.
- Mitigate risks when pursuing or attempting to stop an ATV.
- Identify ATV violations.
- Use an ATV during live fire use of force scenarios.
- Safely operate department ATVs.

Duration: 3-Days (24-Hours)
Tuition: $895.00
Ammunition: 200 Rounds Pistol

Equipment Required: Pistol, duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wrap around eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working. Participants must bring a DOT approved helmet. ATVs can be provided if prior coordination is made.
Ground Combatives

The ground encounter is one of the most dangerous encounters a police officer will face. Being knocked to the ground and having to fight for their lives police officers face the constant possibility of an immediate deadly threat. Learning how to fight and win on the ground is the objective of this class.

Outcomes:
- Grappling while standing to gain the advantage
- Grapple position to take down
- Gain the dominant position on the ground
- Gain the dominant position from the bottom position
- Fighting from the top position
- Rest positions
- Surviving the fall — front — rear
- Escapes
- Choke defense
- Take down defense
- Handgun retention

Duration: 2-Days (16-Hours)
Tuition: $495.00

Ammunition: None

Equipment Required: Training Pistol, duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working. Participants should bring a mouth guard and groin protection.

Mountain Bike Officer Survival

This demanding course combines tactical weapons training with high-intensity biking skills. Students will be challenged to put their bikes, and themselves, through a series of tactical and patrol maneuvers that will test their skills to the limit. Students should have basic skills in operating a mountain bike.

Outcomes:
- Review winning mindset
- Employ tactical weapons skills while working as a Mountain Bike Officer
- Use cover and concealment as a Mountain Bike Officer
- Use immediate reaction drills as a Mountain Bike Officer
- Perform vehicle stops as a Mountain Bike Officer
- Perform emergency dismounts as a Mountain Bike Officer
- Conduct night operations as a Mountain Bike Officer
- Practice advanced riding techniques; overcoming obstacles and barriers, E&E (evasion and escape), off-road operations
- Perform Tactical Casualty Care — First Aid
- Perform Civil Disturbance / Crowd Management Operations

Duration: 5-Days (40-Hours)
Tuition: $795.00

Ammunition: 400 Rounds Pistol

Equipment Required: Pistol with three magazines, duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection (worn with bike helmet), ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working. Mountain bike, helmet, gloves, and gas mask for civil disturbance response.

Excited Delirium & In-Custody Deaths

It’s 2 a.m. and freezing outside. The call comes in: a naked man running down the street. You chuckle to yourself and tell dispatch you are en route. Unfortunately, it’s no laughing matter. The suspect is in a state of narcotics-induced excited delirium. He is in grave danger of dying but is also dangerous to the responding officers themselves. How the officer handles this incident—a medical problem presenting itself as a law enforcement problem—could result in civil and criminal liability for both the officer and his/her agency. This course will present a multi-disciplinary approach (law enforcement, emergency medical service, and hospital) to ensuring the safety of the subject, the officer, and the public.

Outcomes:
- Explain and identify excited delirium
- Review excited delirium incidents
- Control individuals who may exhibit drug-induced “super-human” strength
- Discuss the latest information about positional asphyxia and its relation to restraint by law enforcement officers
- Effectively document use of force incidents
- Review information on the use of electronic control devices for excited delirium incidents
- Discuss model policy development that employs a multi-disciplinary approach to protecting the subject
- Familiarize with response protocols aimed at protecting the subject, law enforcement, and the public
- Practice and employ effective take-down techniques

Duration: 2-Days (16-Hours)
Tuition: $495.00

Equipment Required: Pistol, duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working.

Rapid Response Workshop
2 Day Workshop, $100 Tuition (donated to C.O.P.S.)*

The Rapid Response Workshop provides an update on Tactics and Technology for responding to critical incidents. This training is designed to save lives! Through a combination of classroom, isolation drills, and practical exercises our trainers bring cutting-edge tactical response options to agencies across the country. This two-day workshop will introduce participants to recent innovations from major manufacturers and combine them with cutting-edge tactics to provide the advantage needed when seconds matter and lives are at risk.

**Day One:**
- Introduction and overview provided by C.O.P.S.
- Patrol Expedient Breaching
- Breaching Door and Breaching Equipment Practical Exercise
  (Sponsors: Ruhl Tech)
- Lunch provided by sponsors
- Pistol and Rifle Range Practical use of Lasers, Optics, and Suppressors
  (Sponsors: Trijicon, and Streamlight)

**Day Two:**
- Tactical Casualty Care (MARCH) and Dehydration Awareness
- Low Light Search Tactics – handheld & gun mounted lights
  (Sponsor: Streamlight)
- Lunch provided by sponsors
- Practical exercises
  (Breaching, Low Light Operations, Tactical Casualty Care)
- Debrief and Graduation

**Duration:** 2 Days (16-Hours)

**Tuition:** $100.00 — 100% of tuition proceeds donated to C.O.P.S.

**Ammunition:** Participants will need 200 Rounds of 9mm and 50 Rounds .223cal / 5.56mm each.

**Equipment Required:** Duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats are worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working.

Shaykhet Confrontation Training Program

Lee Shaykhet was born in the former Soviet Union. He graduated from Moscow University and provided training for the military. In 1979 he emigrated to the U.S. Since that time he taught numerous training programs throughout the country. Gary Klugiewicz introduced Lee to the Law Enforcement training community. This program is about the typical problems and issues that occur in a confrontation, and how to successfully deal with them. There are some basic concepts that are addressed. There is a principle difference between the traditional approach to self-defense and the practical side of the matter. The simple fact is that people under stressful conditions cannot do complicated step by step techniques. Lee keeps it simple because that actually works. The training deals with the psychological stress of a confrontation and how to deal with it. The OODA Loop principle is also explained. There is a scenario based practical part, where the students get to put what they learned into practice. The program is broken down into five simple basic concepts.

“I believe that it is smart to keep it simple, this is the foundation of all my training”

Lee Shaykhet

Outcomes:
- Review Core Principles
- Practice Ground Defense
- Practice Edged Weapons Defense
- Practice Knee and Elbow Strikes
- Discuss the role of fitness in self defense

Duration: 2 Days (16 hours)
Tuition: $495.00
Ammunition: None
Equipment Required: None

Event Management for Public Safety Personnel

Whether responsible for a one-day community carnival or a multi-day festival, this three-day course will provide law enforcement personnel with the knowledge and information to effectively and safely manage their personnel and provide a safe environment for the Community. The course, which includes lecture, group discussion, and tabletop exercises, is designed for the aspiring or newly appointed law enforcement event supervisor or event planner, however, all levels of law enforcement will benefit.

Outcomes:
- Single and multi-day events
- Conducting meetings and briefings
- Staffing and span of control
- Establishing Command
- Critical incident response and evacuations
- Creating incident action plans and emergency operation plans

Duration: 3-Days (16-Hours)
Tuition: $955.00
Ammunition: None
Equipment Required: None

Modern Leadership – An Intercultural Skills Workshop

This 24-hour seminar will explore methods of evaluating and improving an organization’s inter-personal and cross-cultural engagement skills. Through a series of guided discussions, students will learn practical ways of identifying and reducing sources of inter-cultural conflict both inside and outside of their agencies. This is a facilitator certification course. Graduates can facilitate difficult conversations with all audiences about contemporary cultural issues. This course is ideal for agencies and individuals who want to improve leadership skills and enhance the cultural competency of their organizations. This course is open to all stakeholders. Although this course is primarily designed for law enforcement officers, we encourage other community stakeholders to participate.

Training Outcomes
- Assess organizational climate and culture
- Use transformative leadership methods
- Effectively communicate with all audiences
- Enhance Cultural Awareness
- Understand and discuss biases
- Facilitate conversations about discrimination, racism, & sexism
- Facilitate discussions about character development
- Develop coaching methods to improve decision making
- Enhanced presentation and facilitation skills

Duration: 3-Days (24-Hours)
Tuition: $955.00
Ammunition: None
Equipment: None

Critical Incident Commander

Critical Incidents can change in seconds. They way first responders and supervisors react can affect the tactics and procedures utilized and the overall outcome of the situation. This course will focus on response procedures for initial responding supervisors to include Patrol, Command and Executive personnel who will be part of a critical incident decision making process. This course will enhance the Command and Control change from patrol to SWAT.

Outcomes:
- Plan and execute immediate response and deployment
- Gather and disseminate intelligence
- Perform tactical containment, assessment, and control
- Perform tactical planning
- Establish and operate an Incident command post
- Plan and conduct tabletop exercises

Duration: 2-Days (16-Hours)
Tuition: $495.00
Ammunition: None
Equipment Required: None
School/Work Violence Workshop

The objective of this course is to prepare Police, Fire, EMS, city and county government, hospitals and transportation management and command staff to have a full mutual aid response to a serious act of violence in any school system promptly.

Instruction will include the development of a master plan outlining a protocol for response to any school in a given system and information on each school within that system (i.e., updated floor plans, aerial photographs, contact information for responsible parties such as Principal, School Resource Officer, etc.). The course also covers how the plan should be reviewed, practiced, updated and improved on a continuing basis and explaining how to conduct periodic exercises to test the effectiveness of the plan.

Outcomes:
- Review system-wide Crisis Response Plan concepts
- Plan and conduct in-house training scenarios
- Document intelligence information on all school (Site Surveys)
- Establish and review responsibilities of students, faculty, and administration during crisis plan activation
- Review responsibilities of first responders: Police, Fire, EMS
- Establish and operate an Incident Command Post
- Transport un-injured to a secondary collection point
- Establish a system for accounting for all students, faculty, and other employees including those who have been transported to a medical facility
- Establish a plan for dealing with parents, relatives and the news media and other logistical problems
- Review crimes scene process and establish a plan for subsequent criminal investigation
- Establish a plan to provide mental health counseling and care for those in need after an incident

Duration: 2-Days (16-Hours)
Tuition: $495.00
Ammunition: None
Equipment Required: None

Tactical Team Leader Course

Team Leaders are the “hands-on” leadership in tactical situations and have a vital role in their successful resolution. This course is designed for the newly appointed team leader or any tactical unit members responsible for the planning and success of tactical situations from briefing to debriefing.

Topics that will be covered are:
- Conduct operational planning
- Conduct briefings and debriefings
- Review and discuss training issues
- Review and discuss communication issues
- Establish methods of “Seeing the bigger picture”
- Plan and conduct table top and group exercises
- Plan and conduct scenario based training

Duration: 3-Days (24-Hours)
Tuition: $595.00
Ammunition: None
Equipment Required: Pistol with three magazines each, Duty belt (or tactical vest) with all issued gear, body armor, flashlight, handcuffs with key, and gas mask. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats will be worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while working.

TACTICAL

High Risk Raids & Search Warrant Operations

This challenging course concentrates on the execution of high-risk raids and search warrants, both in the counter-narcotics arena, or a possible terrorist scenario. Hands-on exercises will hone operational skills and weapons handling, as well as teach officers how to think “outside the box” when planning and executing these potentially deadly operations.

Outcomes:
- Deploy and operate firearms for high-risk raids and warrant services
- Conduct a threat analysis and risk assessment
- Conduct tactical intelligence gathering in an operational environment
- Conduct operational planning and coordination
- Approach the target area without alerting the subjects
- Use various movement techniques; covert, stealth, dynamic,
- Conduct breaching operations
- Use distraction devices during room clearing
- Perform live fire exercises

Duration: 5-Days (40-Hours)
Tuition: $795.00
Ammunition: 400 Rounds Pistol, 400 Rounds Rifle or Submachine Gun
Equipment Required: Pistol and a rifle, shotgun or submachine gun with three magazines each, Duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats will be worn during all live fire training. Participants should bring a helmet and wear clothing suitable for training, but similar to garments worn while working.

To view course schedules or to register, go to www.teamonenetwork.com or call 540.699.8060
Hostage Rescue Operations
This is an advanced tactical team operations course. It is designed to train teams to conduct Hostage Rescue operations using “rapid deployment” tactics. The program consists of classroom, practical application, and scenario-based training exercises.

Outcomes:
- Conduct Breaching: Mechanical, Ballistic, and Explosive
- Coordinate between tactical teams and negotiators
- Plan and conduct shot initiated entries
- Conduct tactical use of firearms
- Conduct threat analysis and risk assessment
- Perform tactical intelligence gathering in an operational environment
- Perform operational planning and coordination
- Approach the target area without alerting the subjects
- Conduct covert, stealthy, dynamic, and forced entry tactics and procedures
- Use of distraction devices during room clearing
- Conduct live fire exercises

Duration: 5-Days (40-Hours)
Tuition: $995.00
Ammunition: 400 Rounds Pistol, 400 Rounds Riffle or Submachine Gun

Equipment Required: Pistol with three magazines each, Duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wrap-around eye protection, ear protection, and brimmed hats will be worn during all live fire training. Participants should bring a helmet and wear clothing suitable for training, but similar to garments worn while working.

Tactical Entry Operations
The insertion window, a team’s tactical approach and entry into a site, is often the most critical stage of an operation. This team-building course has been designed to encourage the sorts of flexible insertion and entry skills necessary prior to a successful take-down under virtually any condition.

Outcomes:
- Conduct stealth, slow & deliberate, and dynamic insertion techniques
- Move quietly in urban and rural areas
- Think outside the box – looking for tactical alternatives
- Approach and enter under night-vision conditions
- Use teamwork during the insertion

Duration: 3-Days (24-Hours)
Tuition: $995.00
Ammunition: None

Equipment Required: Pistol and rifle, shotgun, or submachine gun with three magazines each. Duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wrap-around eye protection, ear protection, and brimmed hats will be worn during all live fire training. Participants should bring a helmet and wear clothing suitable for training, but similar to garments worn while working.

SWAT Operator
This course is focused on honing tactical team operational skills, working within the team environment, and creating situational awareness and survival skills in high-risk situations. While it is not mandatory to attend as part of a team, it is strongly recommended. Exercises will include Simunition® and active countermeasures, and the use of distraction devices. This is an intensive, rigorous and challenging entry-level course.

Outcomes:
- Conduct tactical planning and concepts for tactical teams
- Utilize SWAT weapons techniques for pistol, submachine gun/ rifle, and shotgun
- Conduct site approach and Forced Entry Techniques (Breaching)
- Conduct slow & deliberate, and Dynamic room clearing
- Execute active countermeasures and weapon retention
- Conduct practical exercises that focus on drug raids, high-risk warrants and officer down

Duration: 5-Days (40-Hours)
Tuition: $995.00
Ammunition: 300 Rounds Pistol, 300 Rounds Submachine Gun or Riffle, 50 Rounds 00 Buck, 50 Rounds Skeet, 10 Rounds Slugs

Equipment Required: Pistol and rifle, shotgun, or submachine gun with three magazines each. Tactical duty gear with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wrap-around eye protection, ear protection, and brimmed hats will be worn during all live fire training. Participants should bring a helmet and wear clothing suitable for training, but similar to garments worn while working.

Tactical Surveillance Operations
This course is designed to give students the theory, skills, and techniques involved in conducting surveillance operations. Students will participate in classroom training, interactive drills, and practical exercises. Students will be trained on the use and care of different Optics. An assortment of optical and surveillance devices will be available for use during this course. Upon completion, students will gain the skills necessary to observe criminal activity without being detected.

Outcomes:
- Plan and Brief surveillance operations
- Conduct surveillance operations (Static, Foot, and Mobile)
- Use surveillance equipment
- Conduct surveillance in various conditions; Night, Urban, Rural, etc.

Duration: 3-Days (24-Hours)
Tuition: $995.00
Ammunition: None

Equipment Required: Pistol with three magazines each, Duty belt (or tactical vest) with all issued gear, body armor, flashlight and handcuffs with key. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wrap-around eye protection, ear protection, and brimmed hats will be worn during all live fire training. Participants should bring a helmet and wear clothing suitable for training, but similar to garments worn while working.
TEAM ONE NETWORK CONDUCTS TRAINING FOR THE FOLLOWING MANUFACTURERS:

**ARMORER COURSES:**

- **Benelli LE**
- **CZ-USA**
- **Ruger**
- **Springfield Armory USA**

**LOW LIGHT LASER INSTRUCTOR COURSES:**

**REDMAN INSTRUCTOR:**

- **Streamlight**
- **Trijicon**
- **RedMan**

**MECHANICAL BREACHING INSTRUCTOR COURSES:**

- **Ruhl Tech**
- **Blackhawk**

**FORCE-ON-FORCE INSTRUCTOR:**

- **Force on Force**

**SHOOTING COURSES:**

- **Action Target**
Team One Network provides concealed carry workshops for individuals and groups who are legally qualified to carry concealed weapons. Our professional trainers have extensive experience carrying concealed weapons both in the line of duty and off duty. Our courses allow participants the ability to comfortably move from basic techniques and safe handling to advanced tactics that can save lives during the intense moments of a deadly force encounter.

**Defensive Pistol Techniques - Level One**
This course is designed to merge combat handgun techniques with everyday carry and concealment of the personal handgun. The course combines classroom and range time to give the student a solid understanding of what is needed to deploy the combat handgun from a covering garment.

**Outcomes:**
- Discuss legal issues of concealed carry
- Apply Firearms Safety Rules
- Discuss Ballistics – Internal, External, and Terminal Cycle of Functioning
- Apply fundamentals of shooting – 7 Fundamentals, Different Trigger Systems, Action
- Draw pistol from multiple positions and shooting positions
- Load and Unload firearms safely and with confidence
- Define the difference between cover and concealment and use them appropriately
- Clear stoppages and perform tactical reloads
- Engage multiple targets and perform, “failure drills”
- Apply discretion using Shoot-No Shoot training
- Practice relative positioning

**Duration:** 4-5 hours
**Tuition:** $125.00
**Training Ammunition:** 100 rounds $50.00

**Equipment Required:** Pistol and holster. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats will be worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while daily. Participants should bring their “Every day Carry (EDC).”

---

**Defensive Pistol Low Light Techniques**
This course is designed for Authorized Concealed Carry individuals to defend themselves in low light conditions, whether at home or in the community. The course will include defensive flashlight techniques, with or without a firearm.

**Outcomes:**
- Incorporating a flashlight into shooting techniques
- Use gun mounted lights and lasers
- Conduct defensive movement for target identification
- Participate in practical scenarios

**Duration:** 4-5 hours
**Tuition:** $125.00
**Training Ammunition:** 100 rounds $50.00

**Equipment Required:** Pistol, holster, and flashlight. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats will be worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while daily. Participants should bring their “Every day Carry (EDC).”

---

**Home Defensive Long Gun Techniques – Level One**
This course will cover basic long gun use for home security which will give the Authorized Concealed Carry individual a basic understanding of weapons handling, shooting techniques, and safety.

**Topics that will be covered are:**
- Discuss legal issues of concealed carry
- Apply Firearms Safety Rules
- Discuss Ballistics – Internal, External, and Terminal Cycle of Functioning
- Apply fundamentals of shooting – 7 Fundamentals, Different Trigger Systems, Action
- Draw pistol from multiple positions and shooting positions
- Load and Unload firearms safely and with confidence
- Define the difference between cover and concealment and use them appropriately
- Clear stoppages and perform tactical reloads
- Engage multiple targets and perform, “failure drills”
- Apply discretion using Shoot-No Shoot training
- Practice relative positioning

**Duration:** 4-5 hours
**Tuition:** $125.00
**Training Ammunition:** 100 rounds $50.00

**Equipment Required:** Rifles or shotgun the participant intends to use for home defense. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats will be worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while daily. Participants should bring their “Every day Carry (EDC).”

---

Home Defensive Long Gun Techniques – Level Two
This course will cover advanced shooting techniques, use of cover, practical defensive techniques which will allow the Authorized Conceal Carry individual to respond to a variety of threats to protect their home and family. This course will cover advanced shooting techniques, use of cover, practical defensive techniques which will allow the Authorized Conceal Carry individual to respond to a variety of threats to protect their home and family.

Outcomes:
- Tactically move to and use cover
- Fire pistol with one hand
- Tactically engage targets based on level of threat, "Near to Far."
- Effectively move and turn during the gunfight
- Engage moving targets
- Perform tactical area and building searches

Duration: 4-5 hours
Tuition: $125.00
Training Ammunition: 100 rounds $50.00

Equipment Required: Rifle or shotgun the participant intends to use for home defense. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats will be worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while daily. Participants should bring their “Every day Carry (EDC).”

---------------------------------------------------------------

Personal and Family Preparedness Seminar
The seminar will include an explanation of the variety of natural and man-made disasters and what to do if one should happen. Students will learn how to compile vital information and create a cohesive plan for themselves and their family. The Disaster Survival Planner provided with the course will prove to be a comprehensive workbook to outline a plan.

Outcomes:
- Prepare for natural disasters; floods, tornadoes, hurricanes, earthquakes, wild fires, winter storms
- Prepare for Man-made disasters; terrorists, biological, nuclear, radiation, chemical, explosions, fire, workplace/public area violence
- Plan for emergencies
- Develop an emergency evacuation plan
- Prepare an animal emergency plan
- Review examples of survival kits

Duration: 1/2- Day (4-Hours)
Tuition: $125.00
Training Ammunition: None
Equipment Required: None

---------------------------------------------------------------

Situational Awareness
This course is designed to merge combative handgun techniques with everyday carry and concealment of the personal handgun. The course combines classroom and range time to give the student a solid understanding of what is needed to deploy the combative handgun from a covering garment.

Outcomes:
- Practice flashlight shooting techniques
- Practice with gun mounted lights and lasers
- Practice defensive movement and target identification
- Practical Scenarios

Duration: 4-5 hours
Tuition: $125.00
Training Ammunition: 100 rounds $50.00

Equipment Required: Pistol and holster. Participants should come prepared to train in all weather conditions and should bring a hydration system or water bottle. Wraparound eye protection, ear protection, and brimmed hats will be worn during all live fire training. Participants should wear clothing suitable for training, but similar to garments worn while daily. Participants should bring their “Every day Carry (EDC).”

All Fleet Solutions
All Fleet Solutions is a leader in providing electrical system solutions and high quality manufactured wire harnesses with “Quality by Design”. All Fleet Solutions will design innovative solutions that provide manufacturability to the customer and serviceability to the end user. This strategy enhances All Fleet Solutions overall leadership position in the Emergency, Commercial Truck, Quality OEM, Marine and Energy markets.

All Fleet Solutions excels in full service support of our customers with cost effective design, development, manufacturing and on-time delivery of high quality electrical systems. All Fleet Solutions products will be recognized by customers as the highest quality, the easiest to install, the most reliable, durable in extreme environments and the quickest to service in the field. These advantages allow All Fleet Solutions customers to build more products, support more customers and generate more revenue.

All Fleet Solutions strives to be a respectable corporate citizen to both its’ employees and the community by providing careers to those who wish to excel in American Manufacturing. Our operating environment emphasizes 100% customer satisfaction, sales focus, teamwork, and empowerment of the employee with rewards for those who successfully implement this strategy.
